

Kitchen Spray

T-Safe® Kitchen Spray is an easy way to immediately secure bacteria free water. It retains pathogenic organisms such as *Pseudomonas aeruginosa* and *Legionella pneumophila*.

The T-Safe® Kitchen Spray is also available without filter.

Features

- 0.1 µm sterilizing-graded hollow fiber membrane filter
- High capacity filter provides long life time – up to 92 days*
- Built-in check valve and flow restrictor, which provides a long-term constant flow
- Intelligent spray nozzles ensures an efficient and powerful spray
- Dummy tube is used when filter is not needed

T-Safe® filters have been tested in accordance to ASTM F838-05 with the following microorganisms:

- *Pseudomonas aeruginosa*
- *Legionella pneumophila*
- *Brevundimonas diminuta*
- *Aspergillus brasiliensis*

Technical Data

Item no.	02-803200
Max. operating pressure	5 bar
Max. operating temperature	60° C
Flow rate	12 L/min.
Filter lifetime	Up to 92 days*
Membrane area	3320 cm ²
Bacterial retention	>Log7
Connection	½ inch thread
Colour	Black and Chrome

*Dependent on water usage per day and SDI level
